

ICC Docket No. 01-0423

**Second Stipulation Between Commonwealth Edison Company
And the Illinois Attorney General**

Quantify the distribution outage claim costs paid by ComEd during 2000 and during each of the preceding five calendar years. Please also provide the costs estimate/projection of the distribution outage claim costs the Company will have to pay during each of the years 2001 and 2002.

ComEd paid \$285,650 in distribution outage claim costs in 2000 in addition to the claim costs referred to in ComEd's response to AG data request No. 3.04. These costs, among other claim costs, were recorded in Account 925, Activity 973 (See ComEd Cross Exhibit 29, lines 2958, 3004 and 3052 (pages 39-40)). From January 2000 to July 2000, these expenses were funded through a general funding center, resulting in approximately 37% of such expenses being allocated to jurisdictional delivery services. After the accounting system was reconfigured in July 2000 to permit greater specificity regarding distribution expenses, approximately 89% of these expenses were allocated to jurisdictional delivery services. As set forth in WPC-20.1, page 5, ComEd made a downward adjustment to ComEd's jurisdictional revenue requirement in the amount of \$897,440 for "Customer Commitments Adjustment". The payments made in connection with the Customer Commitments program relate to distribution outages. The Customer Commitments Adjustment does not include the payments described in the first sentence of this paragraph.

ComEd paid \$2,808 and \$33,333 in distribution outage claim costs for 1998 and 1999, respectively. ComEd upgraded its computer database for tracking these costs in July 1998 and it therefore lacks complete and accurate annual data on this subject prior to mid-1998. ComEd has not projected or estimated distribution outage claim costs for 2001 or for 2002.

The Attorney General and ComEd stipulate to the facts set forth herein and to the admissability of this stipulation.
